Data Encryption								

⚡ Performance

Performance Optimization								
Resource Optimization								
Self-Healing								
Auto-Scaling								

Integration

GraphQL API								
REST API								
PWA Support								
Mobile App								

Mandanten-spezifische Features

weGROUP (Master-Mandant)

- **Besonderheiten:**
- Mandantenübergreifende Verwaltung
- Global Dashboard
- System-weite Konfiguration
- Cross-Tenant-Reporting

weANALYTICS

- **Spezialisierte Features:**
- Advanced Data Visualization
- Business Intelligence Tools
- Predictive Modeling
- Data Mining Capabilities
- Statistical Analysis

weFINANCE

- **Spezialisierte Features:**
- Financial Planning & Analysis
- Budget Management
- Expense Tracking
- Financial Reporting
- Risk Assessment

wePROJECT

- **Spezialisierte Features:**
- Project Planning & Tracking
- Resource Management
- Team Collaboration
- Gantt Charts
- Time Tracking

weHR

- **Spezialisierte Features:**

- Employee Management

- Performance Reviews

- Recruitment Tools

- Training Management

- Payroll Integration

Rollenverteilung

Rolle	Anzahl Benutzer	Berechtigungen
SUPER_ADMIN	1 (weGROUP)	Vollzugriff alle Mandanten
TENANT_ADMIN	8 (je 1 pro Mandant)	Vollzugriff eigener Mandant
MANAGER	16 (je 2 pro Mandant)	Erweiterte Berechtigungen
TEAM_LEAD	24 (je 3 pro Mandant)	Team-Management
USER	40 (je 5 pro Mandant)	Standard-Berechtigungen
VIEWER	32 (je 4 pro Mandant)	Nur-Lese-Zugriff

Demo-Benutzer

Mandant	Email	Rolle	Passwort
weGROUP	admin@wegroup.com	SUPER_ADMIN	admin123
weANALYTICS	admin@weanalytics.com	TENANT_ADMIN	admin123
weFINANCE	manager@wefinance.com	MANAGER	manager123
wePROJECT	lead@weproject.com	TEAM_LEAD	lead123
weHR	user@wehr.com	USER	user123
weSALES	viewer@wesales.com	VIEWER	viewer123

API-Endpoints pro Mandant

Gemeinsame APIs (alle Mandanten)

```
GET    /api/auth/session
POST   /api/auth/signin
GET    /api/user/profile
PUT    /api/user/profile
GET    /api/dashboard/stats
```

Admin-APIs (nur für Admins)

```
GET    /api/admin/users
POST   /api/admin/users
PUT    /api/admin/users/[id]
DELETE /api/admin/users/[id]
GET    /api/admin/tenants
GET    /api/admin/system/stats
```

AI-APIs (alle Mandanten)

```
POST   /api/ai/multi-agent
POST   /api/ai/nlp
POST   /api/ai/voice-commands
POST   /api/ai/autonomous-decisions
GET    /api/ai/models
```

Mandanten-spezifische APIs

```
GET    /api/[tenant]/dashboard
GET    /api/[tenant]/analytics
POST   /api/[tenant]/reports
GET    /api/[tenant]/settings
```

Feature-Roadmap

Implementiert (v1.2.0)

• Multi-Tenant-Architektur

• Benutzerrollen-System

• Admin-Panel

• AI-Integration

• Performance-Optimierung

In Entwicklung (v1.3.0)

• Mobile Apps

• Advanced Reporting

• Workflow-Automation

• Third-party Integrations

Geplant (v1.4.0+)

• Blockchain Integration

• IoT Device Management

• Advanced AI Models

• Global Deployment
